

Dear Residents,

The council is sorry to advise of the following:

Bulletin - Area 5.4/Private Land Notification

Until now Liberty had allowed access to the area of land known as Area 5.4 at the end of Amber Lane. The area is private land and has been signposted as such. Signage has always stated that access to the area may be withdrawn and, following increased use, it has been decided to fence the land. The site is not designated open space in any of the Kings Hill planning consents and there are around 100 acres of land in Kings Hill dedicated to providing access to green open spaces for the community to enjoy the health and wellbeing benefits. Walkers will find Public Right of Way MR114 is clearly signposted and the fencing will guide people onto the correct route, which is outside the private land.

Feedback from the Kings Hill community is welcome - <https://www.kings-hill.com/contact/>
